

<b>School:</b>	<b>WEST DALHOUSIE ELEM.</b>
<b>Last Updated:</b>	<b>September 18<sup>th</sup>, 2017 (BC)</b>
<b>General Info:</b>	The main gym is located near the front entrance on the main floor. This is a High School size gym.
<b>Court Lines:</b>	There are 6 badminton courts, the lines are green all around. The courts are regulation size (20' x 44').
<b>Post holes:</b>	Use the post holes that are 2 feet outside each court line.
<b>Nets:</b>	The CSSC supplies the nets. They are located in the gym storage room. They will be in a box labeled CSSC. This smaller box might be stuffed in our CSSC volleyball net box due to the lack of space. The nets are numbered with white hockey tape on the top corners of each net.
<b>Posts:</b>	The 8 posts are in the main equipment room. They are green volleyball posts. All of the posts are labelled #1-8 on white hockey tape. Posts 1,4 are used as outside posts, while 2,3 are used on the inside. Post # 5,8 are used as outside posts on the other side, with posts #6,7 as the inside posts.
	<b>FOLLOW THESE STEPS EXACTLY AS THEY ARE EXPLAINED:</b>
<b>Step 1</b>	Place post 1 in the hole closest to the hallway door with the crank facing into the court. Place post 2 in the next hole with the triangle base facing the storage room wall. Place post 3 in the next hole with the triangle base facing the wall. Place post 4 in the next hole closest to the crank facing into the court.
<b>Step 2</b>	Place post 5 on the outside hole on the next strip of 3 courts. Place post 6 opposite pole 5 with the triangle base facing the wall. Place post 7 in the next hole with triangle base facing the wall. Place post 8 in the last post hole.
<b>Step 3</b>	Take net (1,2) and thread the rope from side 1 through the D-ring above the crank, then down to the crank. Attach the rope to the crank and tighten so that there is about 2 feet of rope between the D ring and the net. Hang net (2,3) and (3,4) over the D-rings of posts 2 and 3. Take the end of net (3,4) and thread the rope through the D-ring on post 4. Attach the rope to the crank and tighten all nets.
<b>Step 4</b>	Do the same for courts 4, 5, and 6
<b>IMPORTANT NOTES:</b>	
<b>PAST COMPLAINTS:</b>
