Volleyball Court Set Up

Volleyball Court Set up

General Information

Parking: Parking is available in the lot on the South/West side of the school which can only be accessed via 68 st. You can park in this lot except in spots that say 24hr Reserved. There is also a smaller parking area on the South side. Street parking is also available along 68 st.

Entrance: Players enter through the doors on the Southwest side of the school. There will be a sign on the door that says “Rental Entrance”.

Gym Location: To access the small gym, players must go through the locker rooms. Once you find the doors for the locker room/large gym, you will see a set of stairs that leads you up into the larger gym and a set of stairs down to the locker rooms. At the other end of the locker rooms is the exit to the small gym.

Changeroom/Washroom: Players can change in the change rooms that are located inside the gym, both the males and females are along the South wall.

Floor: The floors are hardwood with dark green court lines for volleyball and black for basketball. If the floors are dusty, please ask the custodian to sweep with a mirco-fibre broom.

Equipment

Sport Specific Equipment Location and details: The volleyball nets and posts are located in the storage room on the North West wall. The nets will be on a storage device with wheels inside the storage room. The poles should be in a metal storage ‘box’ to the right of the nets. Ensure you have one post with a crank box pulley on the top and one post without the crank. For height, use the highest holes on each of the posts.

Gym Set-up

Volleyball

Step 1: Choose one post with a pulley on the bottom and one post with a pulley on the top. Place into the holes on opposite sides of each court.

Step 2: The net height is adjustable on each post with a pin – **use the highest hole on each of the posts** by pulling out the pin, sliding the sleeve and replacing the pin.

Step 3: Thread the rope from the net over the pulley, towards the crank and attach. Attach net to opposite post by threading rope over the pulley and placing loop over hook.

Step 4: Attach the bottom of the nets to the posts with the ratchet strap by looping the strap around the post and back into the ratchet, tighten slightly.

Step 5: Tighten the net on the top of the net using the crank wheel. Do NOT over-tighten.

Step 6: Repeat these steps for the second court

Basketball

Court Lines: Use the black court lines and playing. The basketball hoops can be lowered by the custodian. If not lowered the hoop tool is in the storage room. All of the side nets should be pulled to the side to not overhang the main court.

Player Benches: For the player benches, use any bench along the side of the gym.

This gym does have regulation glass backboards and a break away rim. There is a 3pt line.

Set-up Diagram

Important Notes

Please do not wander in the hallway.
