Step 1: These posts only have top cables and use hooks and string tie downs to keep the nets tight. Make sure you have one post with a crank and one post with a crank and hook for each court.

Step 2: Place the posts in the ground and then run the cable over the pulley and hook on one side. On the other side, put the net cable over the pulley and attach to the crank.

Step 3: Attach the bottom of the nets to the posts using the ropes.

Step 4: Crank the cables tight and then use the green strings to pull the bottom of the nets tight.

Step 5: Repeat steps 2-4 for the opposite court.

Badminton

- Step 2:** Thread the string on the top of the net through the hole on the top of the pole, then wrap the string onto the hook on the middle of the pole.
