Sport Specific Equipment Location and details: Nets and poles are in the gym storage room. The room is located in the opposite corner from the main entrance. It shares a wall with the large grey wall divider. The blue poles and nets are to the left directly upon entry. The floor holes have large disks with indented finger grooves to assist with lifting the disk from the floor. The large spear-like hooks are in the storage room hanging on wall to the left as you walk in.

Gym Set-up

Badminton:

Step 1: If they are in the way, the Basketball nets on the side walls can be moved. With one hook, pull down the anchor on the bracket attached to the backboard while using the other hook (two person job) push/pull to the side to move it. Also, raise the main Basketball nets on either end of the court, as they may be in the way. You will need a custodian to do this.

Step 2: Locate poles and nets in the Gym Storage room

Step 3: Insert poles into their proper holes, do not drag them on the floor.

Step 4: Clip/tie the top strings onto the top of each post. Then do the same to the bottom. There are no clips for the bottoms so these will need to be tied. Make sure you can untie any knots you make. Do not cut off any string.
